By the end of this lesson, I will be able to:

- Compare the masses of objects measured in single units (grams only or kilograms only).
- Compare the masses of objects measured in compound units (kilograms and grams).
- Order objects according to their masses in single and compound units.

1. Compare Masses in Single Units

1a

TEACHER: LEARNING

My watermelon is very heavy.

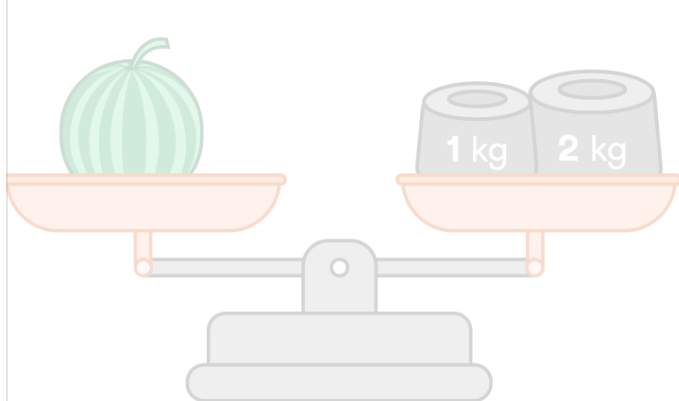

My watermelon is also very heavy.

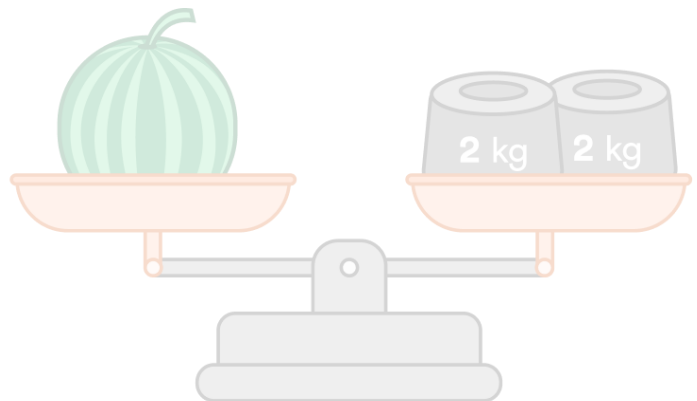

They cannot say which watermelon is heavier just by looking at them.

So, they measure the mass of their watermelons.

Teddy's watermelon

Kitty's watermelon

Mass of Teddy's watermelon = kg

Mass of Kitty's watermelon = kg

Correct Answers:

¹ 3 ² 4
