

TEACHER: LEARNING

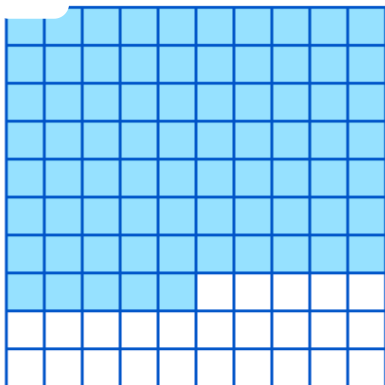

By the end of this lesson, I will be able to:

- Convert between percents and decimals using visual models and algorithms.
- Convert between fractions, decimals, and percents using multiple methods.
- Compare and order fractions, decimals, and percents by converting to common forms.

1. Convert Between Percents and Decimals

TEACHER: LEARNING

1a › Throw Success Rate

The grid shows 75 out of 100 squares shaded.

This represents 75%.

We can write 75% as $\frac{75}{100}$.

Which decimal represents this shaded portion?

75.0

7.5

0.075

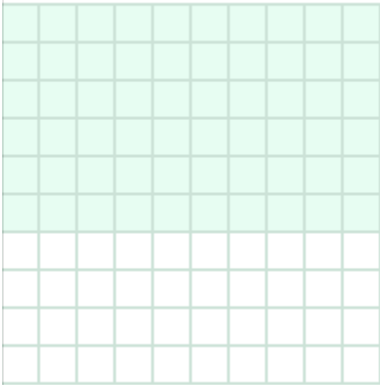

1b

TEACHER: LEARNING

The grid shows the number of passes completed by a soccer player.

Pass Completion Rate

The player completed out of passes.

This shows % of her passes.

We can write it as a decimal as

Correct Answers:

1 60 2 100 3 60 4 0.6

1c

TEACHER: LEARNING

Complete the table.

Percent	Divide by 100	Decimal
25%	$25 \div 100$	
8%	$8 \div 100$	
150%	$150 \div 100$	
0.5%	$0.5 \div 100$	

To convert a percent to a decimal, we divide by .

Correct Answers:

- 1
- 2
- 3
- 4
- 5

TEACHER: LEARNING

A video game player has different accuracy rates for different weapons:

Weapon	Given Rate	Convert to	Answer
Sniper rifle	85%	decimal	
Shotgun	0.92	percent	%
Pistol	45.5%	decimal	
Assault rifle	0.7	percent	%

Correct Answers:

1

2

3

4
